Additional Details

*** IMPORTANT – PLEASE READ *** To ensure that children derive maximum benefit from the session, it is crucial to strictly adhere to the specified timings. Additionally, parents and non-participating individuals should remain in the designated seating area to allow shooters to concentrate and fully utilise the shooting range. The hour will be divided into the following segments: 16:00: Arrive 16:15: The range will become active 16:45: Shooting will conclude, and preparations for the next group will begin. We will not be able to wait for late arrivals. If you arrive late, you can still participate, but this will reduce your allotted range time and may impact the schedule for the club and other members.

Entry Conditions

All attendees **MUST** complete an application and declaration form to become a member of the rifle club, which will cost £9 per person for an entire year from the date of the Rifle Club AGM, this is payable directly to the rifle club. This requirement must be fulfilled **BEFORE** your attendance. For access to the forms and payment information, please contact Dan.

Rules

Air Pistol Shooting – Range Safety Rules

1. ALWAYS USE EYE PROTECTION.

2. ALWAYS USE HEARING PROTECTION.
 3. Air guns are not toys and only be used under adult supervision.
 4. Think first, fire second.
 5. Always point the gun in a safe direction. NEVER POINT YOUR AIR GUN AT PEOPLE OR ANIMALS EVEN IF IT IS NOT LOADED.
 6. Always keep your fingers away from the trigger during cocking and handling. Keep your finger away from the trigger until you are ready to fire.
 7. Always be certain of what is behind your target. Make sure your target does not conceal a person or some object that could be harmed by the pellets.
 8. Do not fire at a target which allows ricochets or deflections. Do not fire into or at water.
 9. Never reuse pellets.
 10. The air gun and pellets should be kept in separate places and under lock and key.
 11. After use and before putting the air gun away, always make absolutely sure that there are no pellets in the chamber.
 12. Do not load the air gun until you are ready to fire. Do not walk, run or jump when carrying a loaded air gun. A loaded air gun should never be carried inside a vehicle.
 13. Do not tamper with or modify any part of your air gun. If a malfunction should occur, consult a professional gunsmith. Do not attempt to repair the internal mechanism of your air gun, since special tools are needed and this could be dangerous.
4. Never leave the shooting range until you are absolutely confident that your gun is completely unloaded. After you are confident that the gun is completely empty, perform one last check: Cock the gun and fire it in a safe direction.
